

Remote Education Provision Information for Parents

This information is intended to provide clarity and transparency to pupils and parents/carers about what to expect from remote education where individual pupils are self-isolating.

The Remote Curriculum: What is taught to pupils at home

What should my child expect from immediate remote education in the first day or two of pupils being sent home?

Learning will be provided on Purple Mash for Day 1 of lockdown.

Following the first few days of remote education, will my child be taught broadly the same curriculum as they would if they were in school?

We will provide the same curriculum remotely as we do in school from the second day of absence. However, initially we may need to make some adaptations in some subjects.

Remote Teaching and Study Time each day

How long can I expect work set by the school to take my child each day?

We expect that remote education will take pupils broadly the following number of hours each day:

EYFS	<p>We provide daily phonics, numeracy or writing and a variety of activities across the curriculum linking with our current topic area.</p> <p>We encourage practical and outdoor learning experiences rather than solely paper based and digital learning.</p>
------	---

Key Stage 1	Reading: 30 minutes Phonics: 30 minutes English: 45 minutes Numeracy: 1 hour Topic: 1 hour
Key Stage 2	Reading: 30 minutes English: 1 hour Numeracy: 1 hour Spellings/ Phonics : 10 -15 minutes Basic Skills: 10 -15 minutes Topic: 1 – 1.5 hours
All Key Stage 1 and 2 pupils will have an Internet Safety lesson each week to focus on how to stay safe online, due to the increased usage of the internet.	

Accessing Remote Education

How will my child be taught remotely?

Lesson content will be provided using the Oak National Academy Platform, White Rose Maths and Read Write Inc. content.

Lessons will be set through Microsoft Teams. Lessons will be set daily by class teachers.

All pupils have a Microsoft Teams login and Key Stage Two pupils independently use this platform regularly in school.

All pupils (Key Stage dependent) also have access to a number of online learning portals including Bedrock Vocabulary, Charanga Music, TT Rockstars and Purple Mash.

If my child does not have digital or online access at home, how will you support them to access remote education?

We recognise that some pupils may not have suitable online access at home. We take the following approaches to support those pupils to access remote education:

We have purchased additional tablets to ensure we have enough to loan out to pupils so that every child, in every household, has their own device.

The digital provision provided enables all children to engage in learning, submit their work and receive feedback through the appropriate platforms.

We have purchased devices to enable an internet connection (for example, dongles and data cards), if pupils do not have access to the internet at home.

If other additional/special arrangements need to be made to ensure every pupil is accessing remote learning, we will do everything we can to support families in our community.

Engagement and Feedback

What are your expectations for my child's engagement and the support that we as parents and carers should provide at home?

We expect all children to engage with home learning each day they would normally be in school. We would encourage all pupils to participate in daily reading/phonics and complete their English and Numeracy work every day at minimum.

We understand that school work may need to work around the working day for parents and it may not work for your family to follow the school timetable for the day. We encourage all children and families to do their best and do what you can.

We would encourage parents to establish a daily routine to support your child's education wherever possible.

We appreciate some days are more difficult than others for families with work commitments, which can hinder support for younger children from parents. However, pupils in Key Stage Two will generally be able to access their remote learning independently and have means to contact the teacher through the general chat function if they need further support.

How will you check whether my child is engaging with their work and how will I be informed if there are concerns?

We will check pupil engagement with remote education on a daily basis.

If a child has not completed their home learning, we will contact parents via text, email or a phone call to find out what school can do to support and to share school expectations of home learning.

The school is adhering to its regular attendance policy when monitoring attendance on remote learning as published on the school's website.

Where engagement with home learning becomes more of a concern, a member of staff will contact parents/carers via a phone call to work with them on what can be done further. In the event of continued lack of engagement with home learning we will make personalised plans for engagement.

How will you assess my child's work and progress?

Feedback can take many forms and may not always mean extensive written comments for individual children. For example, whole-class feedback or quizzes marked automatically via digital platforms are also valid and effective methods, amongst many others. Our approach to feeding back on pupil work is as follows:

All work posted by pupils will be marked. When this work is posted in the evenings, any marking and feedback will not be given until the next school day. If work is posted later than the day it is set, the teacher will check back at the end of every week to ensure they have not missed any work that has been handed in past the deadline date.

We will 'like' or 'comment' on pieces of work through Microsoft Teams therefore all completed work needs to be posted on this platform. Each child should receive personalised, developmental feedback on their learning for that day.

If additional support is needed, parents or pupils can contact school by sending a message on Microsoft Teams and the class teacher will contact you when they are able to.

Teachers will regularly respond back to work set between 8.30 a.m. and 3.30 p.m. daily.

Additional Support for Pupils with Particular Needs

How will you work with me to help my child who needs additional support from adults at home to access remote education?

We recognise that some pupils, for example some pupils with special educational needs and disabilities (SEND), may not be able to access remote education without support from adults at home. We acknowledge the difficulties this may place on families, and we will work with parents and carers to support those pupils in the following ways:

For all parents of a pupil with SEND, the class teacher will make reasonable adjustments to their daily learning as appropriate and provide the appropriate resources.

If your child is struggling to engage with remote learning and you feel you need additional support from school, then contact school at the earliest convenience, we will try to work with you to make further amendments so that the remote learning is as accessible as possible for your child.

We will endeavour to ensure that children will continue to receive the support they are entitled to, if you are struggling with any aspect of remote learning, then do contact school and we will do our best to support you.

We continue to liaise with other professionals to ensure your child's needs are met.
